

Ethan ~~\_\_\_\_\_~~

Flying cars should not be produced. My first reason is that some flying cars could (lose gas) lose fuel and fall out of the sky. My second reason is that they could be mistreated, using them to crash go into buildings or jails. My third reason is that traffic for land cars doesn't kill people. And there is no need for flying cars.

XWHO: COMPANES

XWHAT: Flying cars

XWHERE: Washington D.C

XWHEN: 2/2/17

XHOW: to help reduce traffic jams

XWHY: to get people places faster

IN THIS ARTICLE IT IS TALKING ABOUT  
FLYING CARS. THESE FLYING CARS WILL  
HELP REDUCE TRAFFIC JAMS. IN WASHINGTON  
D.C THE FLYING CARS WILL HELP  
GET PEOPLE PLACES FASTER. THE  
COMPANES ARE CURRENTLY WORKING ON  
FLYING CARS.

Who can inventors / businessmen  
What FLY cars can  
Where

When 2/2/11  
Why they see and need  
how the government asked to  
approve

This article is about flying cars  
and how we should allow them.

People have tried to  
make them but it  
has not worked.

In Washington D.C there was a traffic  
jam and they thought flying over  
it would be amazing. It would help  
and work like "air taxis". ALL we  
need to do is to have  
the government  
approve.

Who's Zach Lobering  
what's fixing taxi  
where European  
when 2/2/17  
why so you can  
get over traffic  
easier.

Hunter  
~~\_\_\_\_\_~~

In this article it is talking about fixing  
taxies that will help you get over traffic  
easier. Zach Lobering is in ~~European~~  
company. This is mostly for people  
who are late for something they can get  
there faster. Zach Lobering is currently  
making the fixing taxi.

- X Who: Companies / Creators of cars!
- X What: Flying cars / Drones
- X Where: Around the globe
- When: Feb. 2 2017
- X How: To let people go where they want to go
- Why: To deliver passengers off rooftops during the rush hour.

In this article it is talking about flying cars and why you would use it. The flying cars are found by companies who are trying to build it all around the world. The companies want the cars to be affordable to let people go wherever they want. This was on Feb 2 for why people need to be delivered on top of rooftops during the rushing hour.

Abbey ~~scribble~~

Nearly a Dozen Companies around the globe are competing to be the first to develop flying cars. Companies see needs for "air taxis" to get people around places. Charles Eastlake likes this idea but also is very hesitant. Companies have to get permission from the government to even have flying cars around.

1 hour

Who? Chuck Eastlake  
What? Flying car may be wave of the future  
Where? Washington D.C.  
When? 2020 to  
How to help people be safe  
Why? Because to not prevent  
Car Crashes

In this article as criticism  
about flying cars, this  
flying car will help the people  
from crashing, and this take  
place in Washington D.C.  
And this to make this much  
easy when the invent cars  
in the future.

alan

in this article it is talking  
about flying cars they will  
be a easy way out of  
traffic. this is specifically made  
for getting out of traffic  
and are gonna make an ave  
united states and are try  
ing to make it in seattle,  
and that its made to  
get out of rush  
hour and will be safe

## flying cars

In the article it is talking about flying cars. one of the Ideas for flying cars is that the wings un fold for lights. one of the main ideas is that its supposed to be faster for people to get places there would probalay be less traffic ~~the~~ jams cause some people wouldnt wanna have flying cars.

In This article I'm talking about flying cars in the possible future. Businesses & inventors are in the market of flying cars. This will show it can help them can be less pollution in the world. 10 years from now this could help get us to the super market faster and quicker w/out polluting the air.

Brush

~~I think it is possible but we~~

This article was about flying cars.  
About ten other companies we try  
-ing to make them. But they  
haven't doubt they can create  
the vehicle. They just need to be  
allowed by the government.  
And figure some of the bugs out.
